

Got Sports Turf?

Atlantic *golf & turf*

is excited to carry the
award winning line marking
system from

LINEMARK INTERNATIONAL

Including the
iGO line marking machines
and Impact line marking
paint.

No more mess in line marking

Impact is ready-to-use paint – no more mixing and pouring paint and no more mess.

It's easier

The iGO line marker is designed by and for grounds staff and is easy to set-up, operate and clean after use and is easily stored.

Save money

With the iGO line marker and the Impact paint you can overmark a standard football (soccer) field with as little as 1.6 liters (0.42 gallons) of paint. The price per field has never been lower.

Looking after the environment

The paint is 100% biodegradable and when applied by the iGO line marker, water and energy is saved. Less paint also means less packaging material.
